DETAILED ACTION

The following is a response to the amendment received on June 15, 2005 which has been entered.

Response to Amendment

Claims 1-18 are pending in the application.

-The 112 2nd rejection claims 1-18 has been withdrawn due to applicant amending claims 1 and 11-15 to clarify the members being connected on each side of a torque transmitting mechanism.

-The 103(a) rejection of claims 8, 10 and 12-18 has been withdrawn due to applicant amending claims 1 and 8 over the prior art of record used in the rejection.

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claim 1) a multi-speed transmission having a first torque transmitting mechanism selectively connecting a member of a first and third planetary gear set and a third torque transmitting mechanism selectively connecting a member of the first or third planetary gear set with another member of the first or third planetary gear set different from the members connected by the first torque mechanism and a seventh torque transmitting mechanism selectively connecting a member of the first or third planetary gear set with another member of the first or third planetary gear set different from the

members connected by the first and third torque transmitting mechanisms in combination with all the remaining limitations of claim 1.

-(as to claim 8) a multi-speed transmission having only a first, second and third interconnecting member wherein the first member continuously connects a first member of a first and second planetary gear set, the second member continuously connects a second member of the first and second planetary gear set and the third member continuously connects a third member of the second gear set with a first member of the third gear set in combination with all the remaining limitations of claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
